## TECHNICAL SKILLS

**Programming languages:**
- MSBI
- SSIS,SSRS,SSAS
- SQL Server

**Web technologies**:
- Crystal Reports
- Sap BO
- Informatica

**Software development methodologies:**
- Agile
- Scrum

## SUMMARY

Seeking a software engineer position in a dynamic and innovative company where I can utilize my technical skills and knowledge to contribute to the growth of the organization. Professional highlights include:

- Having 5 years of professional experience in IT industry, having relevant experience 4 years Involved in MSBI projects with extensive usage of ETL, Reporting tools like SQL Server Integration Services (SSIS), SQL Server Reporting Service (SSRS), SQL Server analysis services(SSAS),Crystal Reports.
- Good knowledge in writing Sql server scripts
- Knowledge of software development methodologies such as Agile and Scrum
- Used Control Flow Tasks like For Loop Container, For Each Loop Container, Sequential Container, Execute SQL Task, File System Task and Data Flow Task, Script task in Designing packages.
- Proven proficiency at Data Transformations like Derived Column, Conditional Split, Sort, Data Conversion, Union All, Merge Join, Merge, Lookup and OLEDB Command to load data into SQL Server destination.
- Maintaining the Log and Audit information in the SQL tables. For SSIS packages
- Creating the different types of reports in the form of Table, Matrix, Chart, Linked Reports, Page nation reports, Linked Reports & Subscriptions for SSRS Reports
- Ability to work independently and in a team environment
- Excellent problem-solving and communication skills Good Knowledge on SQL Server Joins Views, Indexes, Stored Procedures and Functions
- Scheduling the Reports Weekly and Monthly basis as per the Client Requirements
- Interacting with clients individually getting requirement from them solving the issues accordingly

## PROFESSIONAL EXPERIENCE

Associate Software Engineer
April 2021- June 2023

Hexaware Technologies, Mumbai

- Used Control Flow Tasks like For Loop Container, For Each Loop Container, Sequential Container, Execute SQL Task, File System Task and Data Flow Task, Script task in Designing packages
- Collaborated with cross-functional teams to gather requirements and provide technical solutions
- Participated in Agile software development methodologies such as Scrum and Kanban
- Assisted in troubleshooting and fixing production issues in a timely manner

Software Developer
November 2019 - March 2021

Travalex, Mumbai

- Worked on the integration of the front-end and back-end systems
- Assisted in the maintenance and improvement of existing applications
- Provided technical support to end-users
- Improved website responsiveness and user experience by implementing new design features and user interactions

Software Engineer
August 2018 - October 2019

LTI, Mumbai

- Worked on various software development projects using SSIS&SQL
- Assisted in coding, testing, and debugging applications
- Participated in team meetings and presentations, and contributed to the design and implementation of projects
- Acquired hands-on experience in software development methodologies and coding practices

IndiGo is India's largest passenger airline with a market share of 54.7% . We primarily operate in India's domestic air travel market as a low-cost carrier with focus on our three pillars – offering low fares, being on-time and delivering a courteous and hassle-free experience. IndiGo has become synonymous with being on-time. IndiGo is not only the most efficient low fare operator domestically but is also comparable with global low cost airlines. We are constantly enhancing our engagement with our passengers to augment their travel experience. From multichannel direct sales including online flight booking, call centres and airport counters), to online flight status checking, an exclusive IndiGo app for Android, we have transformed air travel in India. Today, we are India's most preferred airline. At IndiGo, low fares come with high quality.

- ➢ Using various control flow items for each loop, for loop and data Flow transformations execute SQL Task, conditional split, multicast, derived column, lookup, sort, union all, Merge, Merge join etc….

- ➢ Used containers  like Sequential, For Loop, For each Loop.

- ➢ Experience in Deploying and scheduling the Packages

- ➢ Scheduling the jobs in the particular time

- ➢ Scheduling the SSRS jobs & reports based on client requirements.

**Project # 2**     : ADAC(Abu Dhabi Airport Control)
