SIREESHA N

E-mail: nallandulas10@gmail.com

Mobile: +91 6301658310

Professional summary:

• Having 5 years of experience in IT Industry. Having 3+ years of experience as a MSBI Developer and 1.9 years of experience as a test Analyst.

• Experience in Database Design, Programming, Development using MSSQL, T-SQL(DDL and DML),SSIS.

• Having Experienced in creating and using Stored Procedures, Views, Synonyms and User Defined Functions.

• Involved in creating Sub-Queries, correlated sub queries and Joins for complex queries involving multiple tables.

• Good experience in using Temp Table, Table Variable and Common Table Expression.

• Involved in creating Indexes, Indexed Views and creating effective Functions and appropriate Triggers to assist efficient data manipulation and data consistency.

• Well experience in Data Extraction, Transforming and Loading (ETL) using tool SQL Server Integration Services (SSIS) and Various Transformations like 'Merge, Merge join, Union all, derived column, Lookup, Fuzzy Lookup Conditional split.'

• Good Experience in using containers like for each loop container and for loop Container and Sequence Containers to read multiple source files.

• Expert in using Execute SQL Task, Execute Package Task, File System Task and Send Email Task.

• Extracted, transformed and loaded data from various heterogeneous data sources and destinations like Excel, CSV, Flat files using connectors, tasks and transformations provided by SSIS.

• Expert in deploying the SSIS package into SSISDB and scheduling through SQL Server Agent.

• Good exposure into Logging, Check points, Breakpoints and data viewers in SSIS.

• Good Experience in Parallelism, Package configurations, Event Handlers.

Work Experience:

❖ Currently Working as associate with Cognizant Technology solutions from Feb 2019 to till Date.

Technical Skills:

Databases : SQL Server.

ETL Tools : SQL Server Integration Services (SSIS)

Academic Details:

❖ B. Tech (Computer Science Engineering) from S.V. Engineering college for women, AP.

PROJECT SUMMARY:

Project #1:

Client : HUMANA (Health Insurance), USA

Role : SSIS Developer

Environment : SSIS & SQL Server

Duration : Sep21 to Nov 22

Description:

Humana is a Health insurance company. It is one of the largest health care insurers in the United States. It is a well-established player in the health insurance industry, providing insurance to almost 13 million customers with annual revenues of more than $43 billion. The company sells individual insurance, Medicare plans and group health insurance plan to businesses.

Roles & Responsibilities:

❖ Involved in designing, developing and deploying Excel reports in MS SQL Server.

❖ Created Complex ETL Packages using SSIS to extract data from staging tables to partitioned tables with incremental load.

❖ Created SSIS Reusable Packages to extract data from Multi formatted Flat files, Excel, CSV.

❖ Developed, deployed, and monitored SSIS Packages.

❖ Created SSIS Packages using SSIS for export heterogeneous data from OLE DB Source , Excel Spreadsheet to SQL Server

❖ Performed operations like Data reconciliation, validation and error handling after Extracting data into SQL Server.

❖ Worked on SSIS Package for transferring data from Database (Oracle and Text format data) to SQL Server.

❖ Experience in SSIS look up transformations and data flow tasks using T- SQL.

❖ Scheduled and maintained daily and monthly loads of user data through jobs, tasks, and alerts.

❖ Created SSIS packages for File Transfer from one location to the other using FTP task.

❖ Created Database Objects - Tables, Indexes, Views, Stored Procedures and User defined functions according to the requirements of the project.

Project #2:

Project : CAFE

Client : COMCAST

Role : SSIS Developer

Environment : SSIS & SQL Server

Duration : Dec 2022 to till date

Description:

Comcast Corporation (formerly registered as Comcast Holdings) is an American telecommunications conglomerate headquartered in Philadelphia, Pennsylvania. It is the second-largest broadcasting and cable television Company in the world by

revenue and the largest pay-TV company, the largest cable TV company and largest home Internet service provider in the United States, and the nation's third largest home telephone service provider. Comcast services U.S. residential and commercial customers in 40 states and in the District of Columbia.

Roles & Responsibilities:

❖ Participated in requirements meetings and data mapping sessions to understand business needs.

❖ Create Customized and interactive dashboards using multiple data sources.

❖ Integrated Custom Visuals based on business requirements using Power BI desktop.

❖ Developed at least two - three visual options for each report for discussion with stakeholders and customers.

❖ Managed access of reports, dashboards and data for individual users using roles.

❖ Created Complex ETL Packages using SSIS to extract data from staging tables to partitioned tables with incremental load.

❖ Created SSIS Reusable Packages to extract data from Multi formatted Flat files, Excel, CSV.

❖ Developed, deployed, and monitored SSIS Packages.

❖ Created SSIS Packages using SSIS for export heterogeneous data from OLE DB Source , Excel Spreadsheet to SQL Server

❖ Performed operations like Data reconciliation, validation and error handling after Extracting data into SQL Server.

❖ Worked on SSIS Package, for transferring data from Database (Oracle and Text format data) to SQL Server.

❖ Experience in SSIS look up transformations and data flow tasks using T- SQL.

❖ Scheduled and maintained daily and monthly loads of user data through jobs, tasks, and alerts.

❖ Created SSIS packages for File Transfer from one location to the other using FTP task.

❖ Created Database Objects - Tables, Indexes, Views, Stored Procedures and User defi
